1. Use Case Diagram

Gambar 1 Use Case Diagram pada Sistem Reservasi Sport Center Kampus

2. Diagram Class

seluruh proses pemesanan dapat berlangsung secara terintegrasi dan terstruktur.

3. Hasil Coding Kotlin

Coding
<pre> class Member(private val idMember: String, private var namaMember: String, saldoAwal: Double) { var saldo = saldoAwal private set(value) { if (value >= 0) { field = value } else { println("Saldo tidak boleh negatif!") } } </pre>

```

    }
}

fun topUp(jumlah: Double) {
    if (jumlah > 0) saldo += jumlah
}

fun bookingLapangan() {
    println("Booking berhasil")
}

fun cekSaldo() {
    println("Saldo: Rp$saldo")
}

fun batalkanBooking() {
    println("Booking dibatalkan")
}
}

class Lapangan(
    private val idLapangan: String,
    private var namaLapangan: String,
    hargaAwal: Double,
    private var jadwalBooking: String
) {

    var hargaSewa = hargaAwal
    set(value) {
        if (value >= 0)
            field = value
        else
            println("Harga sewa tidak boleh negatif")
    }

    fun cekKetersediaan() {
        println("Lapangan tersedia")
    }

    fun tambahBooking() {
        println("Booking ditambahkan")
    }

    fun tampilJadwal() {
        println(jadwalBooking)
    }
}

```
